5. Authorization for this examiner's amendment was given in a telephone interview with Mr. Thomas, Registration No. 64,421, on May 27 and May 29, 2009 to obviate any 35 USC 112 issue and put the claims in condition for allowance.

Examiner's Statement of Reasons for Allowance

6. As Applicants pointed out in the Remarks, the prior art of record (McLaughlin) do not disclose and/or fairly suggest at least claimed limitations recited in such manners in independent claim 1 *"generating... a script code section written in a scripting language... performing usage checks on the generated script code section by extracting language elements from the generated script code section and comparing the extracted language elements with the meta-language definition module used to generate the language-dependent program"* and similarly recited in such manners in other independent claims 11 and 21 (Remarks, pp. 9-10).

These claimed limitations are not present in the prior art of record and would not have been obvious, thus all pending claims are allowed.
